Members \$199

Non-Members \$249

EDUCATIONAL OBJECTIVES

Upon completion of this educational activity, attendees should be better able to:

- Evaluate a patient who presents with headache.
- Describe the classification, diagnosis, and treatment alternatives for the different primary headache disorders.
- Plan appropriate abortive, preventive, and rescue treatment of headache.
- Describe the mechanisms underlying migraine and how they relate to different therapeutic options.
- Explain the rationale for the use of monoclonal antibodies in migraine prevention and identify the new CGRP inhibiting mAbs.
- Identify and treat psychiatric issues comorbid with migraine.

ACCREDITATION & DESIGNATION

ACCREDITATION STATEMENT

In support of improving patient care, this activity has been planned and implemented by University of Minnesota, Interprofessional Continuing Education and the Headache Cooperative of New England. University of Minnesota, Interprofessional Continuing Education is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

CREDIT DESIGNATION STATEMENTS

American Medical Association (AMA)

The University of Minnesota, Interprofessional Continuing Education designates this live activity for a maximum of 7.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Other Healthcare Professionals

Other healthcare professionals who participate in this CE activity may submit their statement of participation to their appropriate accrediting organizations or state boards for consideration of credit. The participant is responsible for determining whether this activity meets the requirements for acceptable continuing education.

Headache Medicine 2018

LEARNING BY EXAMPLE:
A CASE BASED APPROACH

November 3, 2018

8:00-8:05	Welcome and Introduction	Thomas Ward, MD
The Basics Moderator: Paul Rizzoli, MD		
8:05-8:35	Approach to the Headache Patient	Barbara Nye, MD
8:35-9:05	Acute Migraine Therapy	Stewart Tepper, MD
9:05-9:35	Preventive Migraine Therapy	Rebecca Burch, MD
9:35-9:55	Q&A	
9:55--10:15	Break	
A Little Beyond the Basics Moderator: Steven Scrivani, DDS, DMedSc		
10:15-10:45	Pathophysiology of Migraine for the clinician	Robert Shapiro, MD, PhD
10:45-11:20	The new CGRP monoclonal antibodies for migraine	Morris Levin, MD
11:20-11:50	The evidence for neuromodulation in headache	Rashmi Halker Singh, MD
11:50-12:05	Q&A	
Lunch Soup, Sandwich & Cephalalgias Moderator: Alan Rapoport, MD		
12:05-1:30	Experience with the new CGRP inhibiting mAbs: a symposium	Elizabeth Loder, MD, MPH Herbert Markley, MD Peter McAllister, MD
Daunting, Dizzy, and Daily Moderator: Lawrence Newman, MD		
1:30-2:00	Headache Medicine: more fascinating than frustrating	R. Allan Purdy, MD
2:00-2:30	Are we dizzy about vestibular migraine?	Brian McGeeney, MD, MPH, MBA
2:30-3:00	New Daily Persistent Headache	Matthew Robbins, MD
3:00-3:20	Q&A	
3:20-3:40	Break	
The Rest of the Story Moderator: Randall Weeks, PhD		
3:40-4:10	Managing migraine in the ED	Mia T. Minen, MD, MPH
4:10-4:40	A practical way to handle psychiatric comorbidity	Steven Baskin, PhD
4:40-4:55	Q&A	
4:55-5:00	Closing Remarks	Thomas Ward, MD
